ABOUT THE FULL COURSE

Welcome to our flagship education program, the Full Course. Since 2015, hundreds of students have successfully followed the Full Course at MPA. With an incredible variety of musical styles, many of our former students have since then made a name for themselves in their respectable music scene.

This course grants you the knowledge for a lifetime in a one-year program, providing you with all the missing puzzle pieces for you to pursue all your musical ambitions.

The course is structured into four main modules for you to follow, which cover Introduction and Basics, Music Theory and Production Techniques, Sound Processing and Synthesis, and Recording and Mixing.

Upon completing the course, you will be awarded a certificate by the Music Production Academy as a testament to your accomplishment and music production expertise. This certification will attest to your proficiency in music production and open up new avenues for you to pursue your passion. Gain the knowledge in a year, master the skills for a lifetime.

SOFTWARE DISCOUNTS

Studio time

As an MPA student, you get free studio time at MPA. Make use of our Control Room studio for your productions and mixes, get cozy in the Living Room and tighten your mix with the Genelec speakers or DJ in our Beatsuite studio on the Pioneer Nexus set. Our studios are open six days a week and offer everything you need as a beginning and advanced producer to create and finish your tracks. Aside from all the available gear, one of the great benefits of producing at MPA are the acoustics.

Software discounts

MPA students get discounts on software such as Ableton, Izotope, Fabfilter, Sound Toys and much more. As soon as your registration is official, we'll supply you with the proof of enrollment document you can put to good use to get your bundles up to 60% discount. Need advice for your studio setup? Our team is here to help you guide you with whatever you need to start or elevate your passion of making music to the aspired next level.

Masterclasses

At MPA we host monthly masterclasses by established artists in a wide variety of genres. So whether you'd like to learn what it's like to work with the worlds most famous artists, want to get inspired by the next rising star in the dubstep scene or want to learn more about sound design by an established techno producer: we got you. Also due to our partnerships with companies like Ableton, we offer several workshops a year in collaboration with such brands to provide you with additional educational support next to your classes.

Community events

As music producers, we all know what it's like to spend hours alone on a production. We at MPA don't only support you in doing that better, we also facilitate the events for you to connect with all the other producers that share your passion. From writing sessions to jam sessions and meet up events to beat battles. Our community events give you as an MPA student the opportunity to connect with a wide variety of producers of all styles and levels to connect, collab and befriend.

Auditions

For each advanced course it's possible to do an audition. Once you've applied for the advanced class, we will ask you to send us up to three tracks accompanied by your motivation, years of experience and learning goals. After reviewing your work, we'll plan a meeting with you at MPA to further discuss your musical ambitions and evaluate your projects. Once approved, you can start your advanced course at MPA.

Holiday breaks & missing classes

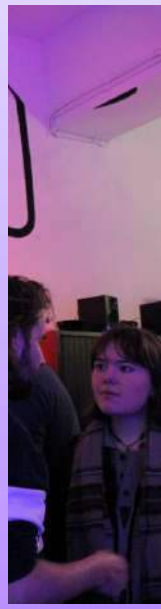
The holiday breaks of the Full Course are in July, August & the Christmas break. Furthermore, we of course hope that you will be able to attend all forty classes. But in case you do miss a class, we'd be happy to think along with you how to catch up on the missed material. In order to make this happen, we have several recap lessons planned throughout the Full Course year.

Payment of tuition

The tuition can be paid both at once or in monthly terms. In case you choose for monthly installments with your registration, a first installment of €900,- needs to be made to make your registration official and reserve your spot in your class. Each monthly installment is priced at €300. Paying the full tuition fee at once with a small discount is also a possibility. We will invoice the remaining eleven terms from the start of your course in the third week of those months. Ask us for the conditions.

Funding & payment arrangements

For Dutch residents it is possible to ask for *PHO Werktuig Subsidie*, which will fund op to €2000,- of your Full Course tuition. For more information and ways of application go to https://werktuigppo.nl/. Do you have any other questions about payment that you would like us to think along with? Please let us know!



STUDENTS ABOUT MPA
